

To Parents/Guardians/Students,

As we have completed our first two weeks of Quad 3, parents/guardians and students will be able to access student progress reports as of February 12.

Student progress will be shared by each teacher through Edsby. Progress indicators will be used to indicate how well a student has been progressing through the first few weeks of the quadmester. The definition of each indicator is as follows:

(V) Progressing Very Well: The student consistently demonstrates significant progress in their learning of the curriculum expectations and is likely to achieve the learning goals of the course.

(W) Progressing Well: The student is demonstrating sufficient progress in their learning of the curriculum expectations and is likely to achieve the learning goals of the course.

(D) Progressing with Difficulty: The student is demonstrating limited progress learning the curriculum expectations. Since the student is experiencing difficulty, he/she needs further strategies to achieve the learning goals of the course.

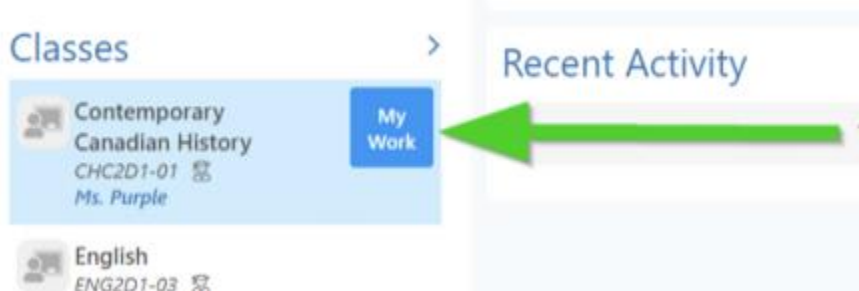

(N) Not Enough Information: NEI is used when a student has participated in too few classes for the teacher to gather information about the progress toward the learning goals of the course.

To access the progress report:

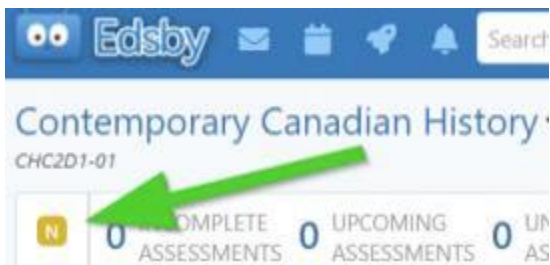

Students

To view the subjective performance indicator.

1. Go to the Edsby home Page select the My Work option beside the class.

2. The indicator letter is shown here.

Parents

To view the subjective performance indicator.

1. The indicator can be seen from the Edsby home page beside the student's class.
